## Declaration of Conformity

according to the REACH regulation (EU) No. 1907/2006

GT Line is a manufacturer of professional tool cases & bags, high impact and water resistant range of cases. We are aware of the European Reach regulation (Regulation (EC) No 1907/2006 of the European Parliament and of the Council of December 18th, 2006 concerning the Registration, Evaluation, Authorization and Restriction of chemicals) and later corrigendum to it.

As regards the REACH regulation, GT Line is considered a "downstream user" and "supplier of articles", which, under normal and reasonably foreseeable conditions of use, should not release chemical substances.

As such, we neither manufacture nor trade in chemical substances, therefore we are not obligated to register with the European Agency for Chemicals 'ECHA'.

Even so, we require from our suppliers that the raw materials they provide us comply with the REACH regulation.

According to REACH, Title IV "information in the supply chain", relevant suppliers need to inform GT Line immediately if their delivered products contain any SVHC (substances of very high concern) in concentration above 0,1% w/w listed in Candidate List, which is regularly updated, or contain substances with any restriction according to REACH - Annex XVII.

For its part, GT Line is obligated to notify its customers immediately upon receipt of any such information.

Note: This declaration of conformity is based on the information provided by GT Une's suppliers. GT Une or its group companies shall not be liable for the validity or content of its suppliers' statements.
